FAST CLASS

FITTED CABINETS & MODULAR TEACHING WALLS

JTC Furniture Group is a specialist designer, manufacturer and supplier of furniture for schools, colleges and universities. We have been producing high quality furniture since 1986 and offer professionally designed products for the education sector.

FAST CLASS is a range of fitted furniture in three height configurations designed to be used in a variety of classrooms for storage and work surfaces. Choose from a standard range of cabinet types, configurations, sizes and finishes.

For reactive maintenance, refurbishment or changes of configuration our ranges of fitted cabinets, modular teaching walls and work surfaces are designed for simple specification without unnecessary drawing & configuration work and a fast and efficient turnaround so that delivery can be made to suit your timetable.

FAST CLASS modular teaching walls are created from a specialist range of cabinets and storage units which are designed to be used in many configurations to suit the individual classroom type and teacher's requirements.

We have included provision for a broad range of possible teaching wall combinations which include provision for ICT and secure storage to ensure that teaching can be optimised and organised in the most efficient manner across a broad range of subjects and age groups.

FAST CLASS takes the most commonly used cabinet types in the most frequently used sizes to offer a broad range of fitted furniture which is available from stocked components so that we can satisfy even the most immediate of requirements. Available in Grey, Beech, Acacia and Walnut finishes with coordinated doors, tops, edges and cabinets for a totally integrated look.

YOUR FURNITURE EXPERTS

IDEAL FOR REFURBISHMENT

FAST CLASS fitted cabinets are offered in three height configurations designed to be used in a variety of classroom types for storage and work surfaces.

Fitted teaching walls which incorporate all the media and storage requirements of a teacher are an ideal solution for both new build and fast efficient refurbishment. Modular components can be conveniently arranged according to requirements using standard components to include various storage solutions, AV presentation equipment and presentation boards. With our unique dry wipe door boards you have the ideal complement to the projector screen image.

With equipment neatly and securely tucked away behind lockable sliding doors, there are possibilities to use a variety of installation configurations which maximise the available space and to keep the paraphernalia of AV concealed whilst providing flexible storage. We offer a full range of solutions which incorporate cupboards, tray cabinets, drawers, shelving and other components all neatly finished off with continuous plinths and pelmets.

NURSERY CABINETS (454mm gable)

Our range of nursery height furniture is designed to create a stimulating and creative environment in which young children can express themselves with due consideration of their development needs and safety yet without compromise to the staff. Our designers understand the needs of children where group activities and robust finishes are required to create a bright and homely appearance.

Nursery Overall Base Height: 640 or 590mm
(140 or 90mm Nominal Plinth Height)
Complies with the recommendations
of BS EN 1729
Sizemark 3/4, Stative 110 -140/6-8 Years

JUNIOR CABINETS (574mm gable)

With an emphasis on flexibility our junior furniture is designed for use by a broad range of school ages with a wide variety of applications. Our junior height range includes the widest selection of base cabinets, wall cabinets, tall cabinets, sink units and shelf units all designed to take the toughest treatment in schools.

Junior Overall Base Height: 760 or 710mm
(140 or 90mm Nominal Plinth Height)
Complies with the recommendations
of BS EN 1729
Sizemark 5, Stative 130 -160/8-11 Years

SENIOR CABINETS (720mm gable)

Older students have more specialist demands and furniture needs to cope with a wide variety of subjects which all benefit from specific design. We offer solutions for every subject area; IT suites, food technology, art rooms, language suites, design & technology, music & drama, science laboratories which all catered for within our senior height furniture range.

Senior Overall Base Height: 900 or 850mm
(140 or 90mm Nominal Plinth Height)
Complies with the recommendations
of BS EN 1729
Sizemark 6, Stative 160 -190/14+ Years

**CREATED FOR SIMPLE &
FLEXIBLE SPECIFICATION**

Flexible solutions for classrooms to incorporate audio visual teaching aids with teaching walls to securely incorporate IT equipment and provide high levels of storage space.

FAST CLASS ADVANTAGES

- Available from Stocked Components
- Fast & Easy Specification
- AV Equipment Compatible
- A Choice of Three Cabinet Heights
- A Choice of Four Popular Finishes
- Optional Security Locks on Cabinets
- Fully Assembled Cabinets - Ready to Use
- Simple Installation by Tradesmen
- Efficient National Delivery Service

FAST CLASS SPECIFICATION

Fast Class cabinets are designed with the fast and efficient classroom refurbishment in mind. You can choose any configuration to suit the type of classroom and the needs of the teacher with the certain knowledge that all the units are designed, tested and approved by teachers in schools across the UK.

DOOR & DRAWER FRONTS

Core Material: 18mm, 680kg/m³ melamine faced chipboard (MFC), UK Sourced to EN438 Standard finish in 4 colours - Grey, Beech, Acacia & Ontario Walnut

Matching heavy duty ABS edging tape.

Drawer Bases: heavy duty 15mm white MFC

Our core materials are manufactured to EN14322 and BS EN 312:2003 Pt2. Laminates conform to EN 438 standard. Cabinets are performance tested to BS4875 Pt 7 (Test Level 4).

COLOUR MATCHED CABINETS

Material: 18mm, 680kg/m³ melamine faced chipboard (MFC)

Construction: cam, pin and dowel

Performance: EN14322 & BS EN 312:2003 pt2.

Finish: to match doors & drawer fronts

Edging: Exposed edges matching ABS tape carcass edge

Plinth: Matching MFC clipped to cabinet leg or robust box plinth for Teaching Wall

Our cabinet materials are produced using materials from FSC approved manufacturers. Furniture for use in schools complies with the recommendations of BS EN 1729 and according to the recommendations made by the DfES and the Scottish Executive.

JTC Furniture Group manufactures cabinets in the UK to strict ISO 9001 Quality and ISO14001 Environmental Standards.

CONSTRUCTION

Assembly: rigid fully assembled cabinets with gables, rails, bases and any fixed shelves aligned by means of wooden dowels and secured by metal cam and pin joint (cam & dowel)

Muntins secured by wooden dowel and screws. Removable backs grooved into position and secured in position with screws

Muntins secured by wooden dowel and screws

Removable backs grooved into position and secured in position with screws

Adjustable shelves supported by 4nr pin clips; double units have additional support pin on muntin

Teaching wall Mid Cabinet with 25mm shelves on metal spur assembly for heavy duty use

COLOUR MATCHED LAMINATE TOPS

Core Material: 38mm 680kg/m³ grade chipboard to BE EN 312

Construction: postformed leading edge in high pressure laminate to the work surface and compensating laminate to the reverse. All exposed edges are sealed.

IRONMONGERY & ACCESSORIES

Handles: 96mm D type

Hinges: 170 degree all metal construction, self closing with 5 pin action

Drawer Boxes: epoxy coated mild steel drawer sides

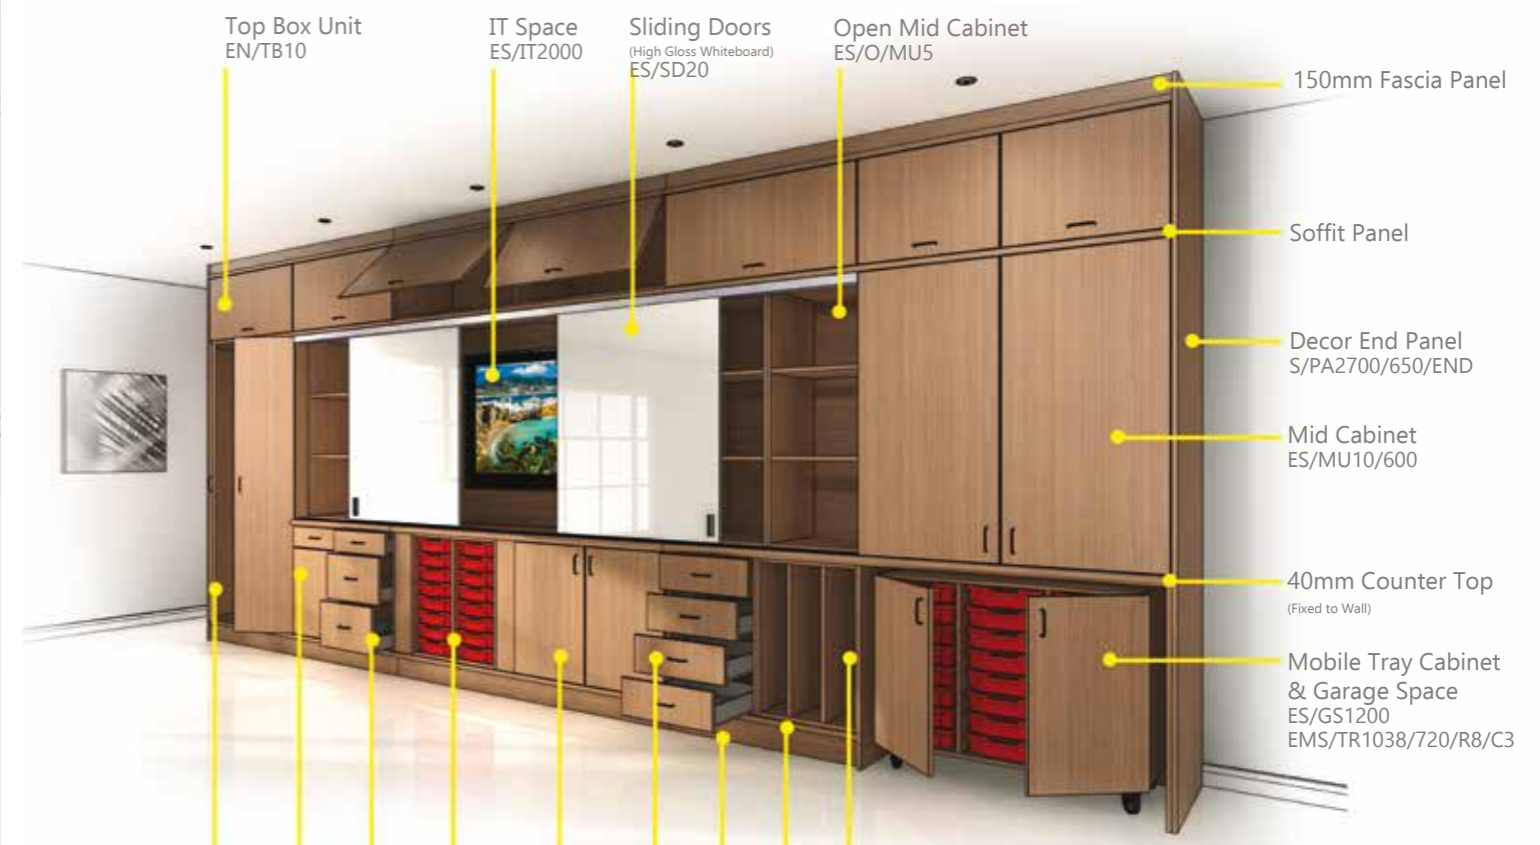

Support Legs: adjustable plastic legs in 140 or 90mm

Teaching Walls on secured & levelled box plinth base for added support.
